

Stabilization Central

— CREDIT UNION —

Hi defaultfirstname,

I am pleased to announce the official launch of our Lessons Learned Series of thought leadership papers to the system. The first paper of the series is centered around the intervention stage rating and regulatory remediation process in BC and Canada. It describes what board directors and senior management can expect, as well as best practices and practical tips to navigate this challenging circumstance. The aim is to inform credit unions about the staging process based on Stabilization Central's extensive experience in this area, and to explain how we can support a credit union that finds itself under heightened regulatory scrutiny.

[Access Lessons Learned Paper #1](#)

We have created a spot under the [Resources section](#) of our website for our Lessons Learned Series of papers for you to refer back to. Please note that login is required for access. If you haven't signed up, the process is quick and we will approve access within 24 hours of the request.

The next paper in the Lessons Learned Series will be focused on Commercial Lending which can present challenges to any credit union. We hope that our perspectives in this area will be helpful. We are on track to have the Commercial Lending paper released to the system by the end of Q2.

We look forward to your feedback on this first of many papers. If you have thoughts on other discussion topics you would like to see in the future, please let [Frank](#), [Sam](#) or me know.

Bill Corbett, CPA, CA (he/him/his)
