Hi defaultfirstname,

As you are aware, the geopolitical tensions in eastern Europe are giving rise to concerns about potential cyber warfare and attacks on financial systems in the west.

Willis Towers Watson (WTW), the brokers that we use to secure excess insurance coverage for your Master Bond Program, produced the following short article which I thought was well done and am forwarding on for your information. There are also numerous other resources that have come forward in recent days if you are looking for more detail.

If you have any questions, please let me know, or contact our team directly at masterbondgeneral@stabilizationcentral.com.

Next week, we will be sending out our next quarterly communication including some expanded analytics on the Program. Keep your eyes open for that.

Have a good weekend.

Bill
